INTRODUCTION

Do you know a Life of the Party? A Big Spender? Or the World's Greatest Cook? Would you like to give someone a Movie Critic's License? A Best Dancer Award? Or a Coupon for a Hug?

Does someone you know deserve a Gold Star Award? A Green Thumb Award? Or a Graduation Certificate?

Congratulations! Certificate Library Volume 1 makes it possible for you to create these and many other awards and certificates.

In addition to over 100 new certificates, Certificate Library Volume 1 contains 24 new borders. You can use the new borders with the original Certificate Maker certificates as well as with the Library certificates.

And for a final touch, Certificate Library Volume 1 provides six dozen stickers and seals. Three dozen are the same as the ones in the original Certificate Maker program; three dozen are new to the Library.

How to use this manual

This manual is divided into three parts:

- Instructions for using the Certificate Library Volume 1 disks. (Two disks are needed to accommodate the detailed graphics on the new certificates.)
- Samples of the borders.
- Illustrations of the certificates.

OPERATING INSTRUCTIONS

Instructions for Apple and Commodore users

If you have two disk drives, keep the Certificate Maker program disk in drive A. Use the Certificate Library disks in drive B.

If you have one disk drive, the program will prompt you when you must switch disks or sides.

The contents of each side are marked on the disk labels.

Borders

Certificate Library Volume 1 includes 24 new borders. To select a border, put either Library disk into a drive, then select the New Disk option from the Select border screen.

Fonts

There are no new fonts on this Certificate Library. Do not select the New Disk option from either the Select title font style screen or the Select body font style screen.

Note: Apple only: Side A of the appropriate disk must be in the drive when the certificate number is entered. You may be asked to flip your disk when printing the certificate to access additional graphics data.

Instructions for IBM users

To get started, you must run the installation program that is on Certificate Library disk 1.

1. Make sure that you have made a backup copy of the Certificate Maker Master Program disk (disk 1 of the original program).
2. Put the Library disk 1 into drive A.
3. Type **A:** (Enter)
4. Type **INSTALL** (Enter)
5. The program displays the Hard disk configuration screen. Enter **N** if you have not installed Certificate Maker on a hard disk; enter **Y** if Certificate Maker is on your hard disk.

Floppy disk systems

The program will remind you to make sure you have made a backup copy of the Program disk, and instruct you to put the program disk into drive A.

That's all you have to do. The program will let you know when installation is completed.

When running the program, keep the Master program disk in drive A. To select a certificate from the Library, insert the disk with the certificate number you want into drive B. (If you have a single-drive system, insert the Library disk when the program asks for it.)

Hard disk systems

The program will ask you a couple of questions about your computer setup. Select the appropriate responses.

Put Disk 2 into drive A when the program asks you to. When installation is complete, you will be able to select all the new certificates and borders from the hard disk. (All files are copied to the subdirectory **CERTIF** created when you set up the Certificate Maker program.) If you re-install the original Certificate Maker Program, you must also re-install the Library.

Borders

Certificate Library Volume 1 includes 24 new borders.

If you have a floppy disk system, put either Library disk into drive B, then select the New Disk option from the Select borders screen.

If you have installed Certificate Maker onto a hard disk, select the New Disk option from the Select borders screen. The program displays the following options:

Certificate file on A:

Cancel

Certificate Maker (original borders)

Library Volume Disk 1 (new borders)

(Select Library Volume Disk 1 to access new Library borders from the hard drive.)

Fonts

There are no new fonts on this Certificate Library. Do not select the New Disk option from either the Select title font style screen or the Select body font style screen.
