Insert Disk Image 8,9,10,11	Alt-8, Alt-9, Alt-0, Alt-1
Formfeed Printer #4, #5, #6	Alt-4, Alt-5, Alt-6
Disk Fliplist add Current Img	Alt-I
Disk Fliplist remove Current Img	Alt-K
Switch to next Img in Fliplist	Alt-N
Switch to Prev. Img in Fliplist	Shift-Alt-N
Cartridge Freeze	Alt-Z
Smart Insert Cartridge Image	Alt-C
Activate Monitor	Alt-H
<b>Toggle Pause</b>	Alt-P
Advance one frame	Shift-Alt-P
Toggle Warp Mode	Alt-W
Exchange Joystick Ports	Alt-J
Exchange Userport Joystick Ports	Shift-Alt-U
Toggle allow Joystick Keymaps	Shift-Alt-J
<b>Grab Mouse</b>	Alt-M
Load Snapshot	Alt-L
Save Snapshot	Alt-S
Snapshot Quickload	Alt-F10
Snapshot Quicksave	Alt-F11
Toggle Fullscreen	Alt-D
Toggle Statusbar / Menu	Alt-B
Restore Window Size	Alt-R
Open Settings	Alt-O

### JiffyDOS 6.1 Commands

@	Read Error Channel
@C:newfile=file	Copy a file on the same diskette
@I	Initialize Drive
@N:diskname,ID	Format a New Disk
@N:diskname	Short NEW
@Q	Disable JiffyDOS
@R:newname=oldname	Rename a file
@S:file	Scratch a file
@V	Validate Drive
@B	Disable Head Rattle
@D:filename	List a BASIC Program
@P	Toggle Printer Output
@T:filename	List an ASCII file
@X	Set destination drive
<-filename	Save BASIC program

### CBM Command

D	Change drive LEFT side
Shift-D	Change drive RIGHT side
A	Select ALL files
S	Un-Select ALL files
+	Next Page
-	Previous Page
^	Jump to start of file list
Shift-^	Jump to end of file list
Shift-Return	Open text file
X	Create disk image
Shift-X	Write disk image
@	Disk command

## GEOS DeskTop Shortcuts

File Commands	
C= + Z	Open file
C= + H	Duplicate file
C= + M	Rename file
C= + Q	Info
C= + P	Print
C= + D	Delete
C= + U	Undo delete
Disk Commands	
C= + O	Open Floppy Disk
C= + C	Close
C= + N	Rename
C= + K	Copy
C= + V	Validate
C= + E	Erase
C= + F	Format
Other Commands	
C= + I	Select input device
C= + W	Select all files on ALL pages
C= + X	Select all file on page
C= + Y	Select files on border
C= + S	Add page to DeskTop
C= + T	Delete page from DeskTop
C= + A	Change to drive A
C= + B	Change to drive B
C= + 1—8	Select files on page
C= + Shift + 1—8	Select files on border
1—9	Select pages 1—9
0	Select Page 10
Shift + 1—8	Select Page 11—18

## GeoWrite Shortcuts

File Commands	
C= + X	Cut
C= + C	Copy
C= + T	Paste text scrap
C= + W	Paste photo scrap
C= + S	Search
C= + N	Find next
C= + Y	Change then find
C= + H	Open / close header
C= + F	Open / close footer
C= + <-	Previous Page
C= + +	Next Page
C= + G	Goto page
C= + L	Insert page break
Styles	
C= + P	Plain
C= + B	Bold
C= + I	Italics
C= + O	Outline
C= + U	Underline
C= + >	Superscript
C= + <	Subscript

# JiffyDOS 6.01 commands (direct mode):

[slark.me/c64](http://slark.me/c64)

<b>SHIFT-RUN/STOP</b>		Load & run first program on disk (LOAD ":",n,1↵ RUN↵)
<b>@</b>		Display & clear disk drive status (error channel)
<b>@command</b>		Send command to disk drive (OPEN 15,8,15,"command":CLOSE 15)
<b>CTRL-D or @#n</b>		Set Default disk drive (n=8,9,10,11) or source (for file copier)
<b>@N:diskname[,ID]</b>		Format New disk (,ID required for first formatting of disk)
<b>@I</b>		Initialize disk drive (use when inserting a disk)
<b>@P</b>		Toggle Printer/screen output
<b>CTRL-P</b>		Output current text screen to Printer
<b>@\$</b>	<b>F1</b>	Display directory (on default disk drive)
<b>/filename</b>	<b>F3</b>	Load BASIC program (LOAD "filename",n)↵
<b>↑filename</b>	<b>F5</b>	Load & run BASIC program (LOAD "filename",n↵ RUN↵)
<b>%filename</b>	<b>F7</b>	Load ML program (LOAD "filename",n,1)↵
<b>ffilename</b>		Load & run ML program (LOAD "filename",n,1↵ SYS...↵)
<b>@D:filename</b>	<b>F2</b>	List BASIC program from disk (DList)
<b>@T:filename</b>	<b>F4</b>	List PETSCII text file from disk (TList)
<b>CTRL</b> (hold down)		Scan listing (will stop listing from scrolling off screen)
<b>CTRL-S</b>		Freeze listing (resume with any key exc. CTRL,RUN/STOP,SHIFT,C↵)
<b>CTRL-S ↔ CTRL-W</b>		Single-step listing (hold down CTRL, alternately press S↔W)
<b>RUN/STOP</b>		End (break off) any JiffyDOS or BASIC listing
<b>+filename</b>	<b>F6</b>	Save new BASIC program (SAVE "filename",n)↵
<b>+@:filename</b>		Save & replace existing BASIC program (SAVE "@0:filename",n)↵
<b>@0</b>		Un-NEW (Old) BASIC program
<b>@S:filename</b>	<b>F8</b>	Scratch (delete) filename on disk
<b>@L:filename</b>		Lock/unlock (prevent/allow) scratch of filename on disk
<b>@C:newname=oldname</b>		Duplicate (Copy) file on disk from oldname to newname
<b>@R:newname=oldname</b>		Rename file on disk from oldname to newname
<b>@Xn</b>		Set destination disk drive (for file copier: see User's Manual pp. 17-21)
<b>/\$</b> (DO NOT USE @\$)		Load directory from source disk drive (for file copier)
<b>LIST</b>		List directory from source disk drive (for file copier)
<b>CTRL-A</b>		Toggle copy flag * for All files in directory (for file copier)
<b>CTRL-W</b>		Toggle copy flag for single file in directory (for file copier)
<b>RUN</b>		Copy file(s) from source to destination (with above commands)
<b>'filename</b>		Verify loaded file to file on disk (VERIFY "filename",n,1)↵
<b>@V</b>		Validate disk (free unused blocks on disk - SLOW)
<b>@B</b>		Disable 1541 head rattle (Bump)
<b>@G</b>		Set interleave Gap size (see User's Manual pp. 21-25, 40-41)
<b>@UJ</b>		Reset default disk drive
<b>@F and SYS 58551</b>		Disable and re-enable JiffyDOS Fn keys (JiffyDOS/64)
<b>@Q and SYS 58451</b>		Disable (Quit) and re-enable JiffyDOS (JiffyDOS/64)

## JiffyDOS 6 Quick Reference Card

### \*\* Function Keys

- \* F1 = @S:\* RETURN Display directory
- \* F3 = / Load a BASIC program
- \* F5 = ^ Load and run a BASIC program
- \* F7 = % Load an ML program
- \* F2 = %D List a BASIC program from disk
- \* F4 = @T List an ASCII (text) file from disk
- \* F6 = <- Save a BASIC program
- \* F8 = @ "S: Scratch a file

### \*\* Disk Commands

- \* @ Read the disk drive error channel
- \* @C:newfile=file Copy a file on the same diskette
- \* @I Initialize the disk drive
- \* @N:diskname,ID Format a NEW diskette
- \* @N:diskname Short NEW
- \* @Q Disable the JiffyDOS commands
- \* @R:newname=oldname Rename A File
- \* @S:file1[,file2]...Scratch a file (files)
- \* @UJ Reset the disk drive
- \* @V Validate a disk
- \* @\$ Display a disk directory
- \* @#device Set the default device number
- \* /filename Load a BASIC program
- \* ^filename Load and run a BASIC program
- \* %filename Load an ML program
- \* <-filename Save a BASIC program
- \* @B Disable the 1541 head rattle
- \* @D:filename List a BASIC program from disk
- \* @F Disable the function keys
- \* @G Set interleave gapsize
- \* @L:filename Lock/Unlock a file
- \* @O Un-NEW a basic program
- \* @P Toggle printer output
- \* @T:filename List an ASCII file from disk
- \* @X Set Destination device number
- \* \*"filename"type Copy a file
- \* ffilename Load and run an ML file
- \* 'filename Verify a file

### \*\* Control Keys

- \* CONTROL A Toggle all files for copy
- \* CONTROL D Default drive toggle
- \* CONTROL P Screen Dump
- \* CONTROL W Toggle single file for copy

## JiffyDOS 6.1 Commands

@	Read Error Channel
@C:newfile=file	Copy a file on the same diskette
